

geveoFinal - API Documentation

API Documentation

Overview

This document provides API documentation for geveoFinal.

API Analysis

No clear API endpoints were detected in the codebase. This could mean:

1. The project doesn't expose APIs
2. APIs are dynamically generated
3. API definitions are in configuration files

OpenAPI Specification

```
openapi: 3.0.0 info: title: geveoFinal API version: 1.0.0
description: API for geveoFinal servers: - url:
http://localhost:3000 description: Development server paths: # API
paths would be defined here based on detected endpoints
```

Usage Examples

```
# Example API calls would be provided here curl -X GET
"http://localhost:3000/api/endpoint"
```
